SEPTEMBER NEWSLETTER
KINDERGARTEN EDITION

Boozhoo from Mrs. Lauren and Mr. Shun!
We are so happy to have our kindergarteners in the classroom! We learn a lot through play, which means children are exploring, imagining, and creating while building important skills that engages your child's spirit, heart, mind, and body every day.

Welcome to School/Kindergarten!

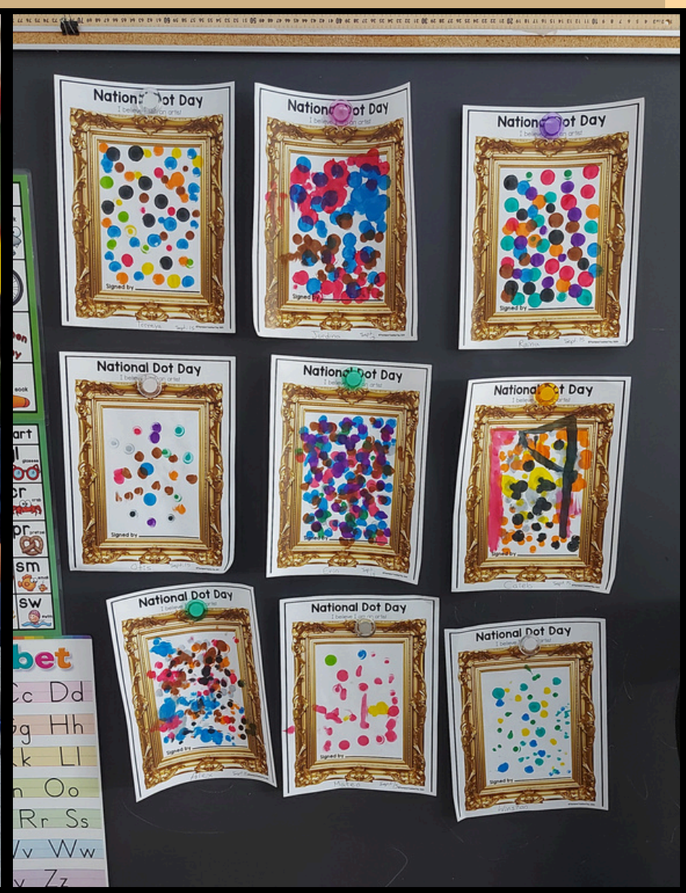

Welcome back to school, kindergarten families! Our 2026 school year began with smiles as teachers prepared welcoming classrooms and school spaces for our students. Families and community members joined us for a welcome lunch, sharing food and strengthening connections. Our kindergarten children enjoyed exploring through play, colouring, and tracing activities. Special welcome treats added extra excitement to their day! Children also met their teachers, including those teaching music, language, traditions, and culture. It was a wonderful beginning filled with curiosity, laughter, and friendship. We look forward to learning, growing, and celebrating each child together with you throughout this school year!

Dot Day (Sept. 15)

"Dot Day" is based on the book *The Dot*, written by Peter H. Reynolds. After reading the story together, students participated in a fun activity inspired by the book. The story reminds us that everyone can be an artist and that even a simple dot can be the beginning of something wonderful!

Back to School BBQ

Our Welcome Back to School Feast brought families, teachers, and community together! Traditional drumming honoured culture and strengthened community connections. HCMS and Matawa Education hosted the celebration, welcoming new and returning teachers to meet families. Children enjoyed the bouncy castle, face painting, book fair, and sun print art. Everyone shared delicious food together and enjoyed raffle prizes. Thank you for sharing this special beginning with our wonderful, welcoming school family!

Our kindergarten classroom has been filled with creativity, laughter, and discovery! Through playdough, children explored shapes and strengthened their little hands. Magnetic tiles inspired exciting buildings, with plenty of building, knocking down, and trying again! Outdoors, children enjoyed chasing bubbles, running around the playground, and exploring the playground structures together. Inside, dramatic play sparked imaginations as children created a mini house and brought puppets to life through stories and conversations. These playful experiences support cooperation, communication, problem solving, and movement. We love watching your children build friendships, share ideas, and grow in confidence as they learn through play each day!

Play-Based Learning

Truth & Reconciliation Day + School River Walk

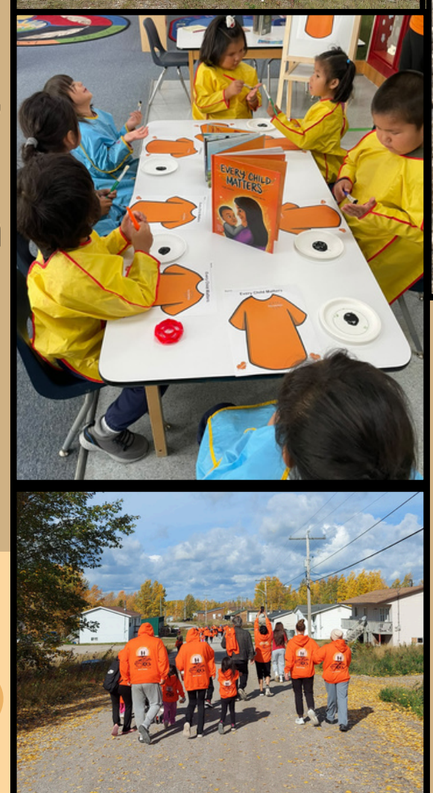

For Truth and Reconciliation Day, our community gathered to honour the children who never came home and the survivors that did return from residential schools. We shared food, listened to teachings and songs, and walked together through the community with the Marten Falls flag held high. In class, we read the story “Every Child Matters” by Phyllis Webstad and did an art activity where students put their hand print in the middle of an orange shirt.

Our school took part in a River Walk, with each class exploring together! We followed the river over rocky terrain, taking in the sights and sounds of the water along the way. We couldn’t be more prouder of how our Kindergarten students embraced their first outing beyond the school!
